01 Research Statement

I work on machine learning for settings that mainstream models serve poorly: small languages, specialised scientific measurements, and clinical text. My group builds the infrastructure that lets Icelandic and Faroese participate in modern NLP, from language models and translation resources to evaluation sets for gender bias, sentiment, and question answering. The same toolkit supports collaborations in marine and agricultural vision, automated clinical coding with the National Hospital, and, from 2021 to 2026, human genetics at deCODE. I was trained in probabilistic combinatorics and models of cortical circuits. That background still shows in how the group works: explicit assumptions, small data budgets, and results we can check.

02 Current Positions

2026–present **Head of the Faculty of Industrial Engineering, Mechanical Engineering and Computer Science**, University of Iceland, Iceland
2024–present **Associate Professor in Computer Science**, University of Iceland, Faculty of Industrial Engineering, Mechanical Engineering and Computer Science, Iceland
2024–present **Co-founder**, KatlaCode, Iceland

03 Previous Positions

2021–2026 **Principal Scientist**, Amgen deCODE, Iceland
2020–2024 **Assistant Professor in Computer Science**, University of Iceland, Iceland
2019–2023 **Co-founder**, Prescriby, Iceland
2018–2020 **Data Scientist**, Íslandsbanki, Iceland
2017–2018 **Postdoctoral Researcher**, Institute of Neuroinformatics, ETH Zurich, Switzerland

04 Education

2017 **PhD in Computer Science**, ETH Zurich, Switzerland.
Fast Emergence of Neural Structures. Prof. Angelika Steger
2013 **MSc in Computer Science**, ETH Zurich, Switzerland.
2011 **BSc in Mathematics**, University of Iceland, Iceland.

05 Awards and Grants

2026 **Best Paper Award, CELDA 2026** — For "Validating LLM-Generated Exam Questions Against Student Performance" (with Sigrún Helga Lund)
2026 **Vísindi og velferð** — Grant for developing an app for science literacy, 700k ISK
2026 **Microsoft Lingua** — Grant for developing LLM red-teaming datasets for Icelandic (Microsoft), 50k USD
2024 **Science Award, University of Iceland** — Best overall science work and best in health science (for ICD-10 coding using Icelandic BERT models)
2023–present **TrustLLM** — EU-funded project on language models for Germanic languages (Horizon Europe)
2022 **Neologism platform for Icelandic** (University of Iceland), 4M ISK
2021 **Incentive Award, University of Iceland** — For QA models for Icelandic (supervised student project)
2020–2021 **Sproti and Vöxtur** — Awarded to Prescriby for digital product development (Icelandic Centre for Research (Rannís)), 90M ISK total
2020 **Digital literacy course development** (University of Iceland), 3M ISK
2017 **Early Postdoc Mobility Fellowship (declined)** (Swiss National Science Foundation)
2010 **Summer Undergraduate Research Fellowship (SURF)** (California Institute of Technology)

06 Supervision

PhD students (main supervisor) — 3
Annika Simonsen — TrustLLM: aligning language models for Germanic languages
Joao Rodrigo Da Silva Martins — PhD with the Marine and Freshwater Research Institute, Iceland
Steinunn Rut Friðriksdóttir — Mitigating prejudice in language models

PhD committee — 7

Amir Hamedpour
Bjarki Ármannsson
Gabriele Benedetti
Isidora Glisic
Pétur Helgi Einarsson
Sindri Emmanúel Antonsson
Þór Sverrisson

Past PhD committees — 2

2026 **Emil Harðarson** — Artificial Intelligence in Regulated Domains: Lessons from Sleep Medicine
2025 **Andrea Rakel Sigurðardóttir** — Multispectral imaging

Master's theses completed — 14

2026 **Hörður Helgi Helgason** — Evaluating LLM performance on complex domain-specific classification tasks — automated evaluation of gold-plating in EU legal transposition
2026 **Yevhen Bilyi** — Predicting opioid tapering outcomes with machine learning: feature engineering and model comparison
2025 **Alexander Guðmundsson** — Evaluating Speech Technology Integration in Children's Reading Education
2025 **Joao Rodrigo Da Silva Martins** — Fish Species Classification in Controlled Underwater Environments Using Contrastive Language-Image Models → PhD with the Marine and Freshwater Research Institute, Iceland
2025 **Margrét Snorradóttir** — Creativity and ADHD: Exploring the Role of Hyperfocus and Divergent Thinking
2025 **Steinar Bragi Sigurðarson** — AI-assisted book recommendations for children
2024 **Haraldur Orri Hauksson** — ICD-10 classification for Icelandic
2023 **Annika Simonsen** — Improving Machine Translation for Faroese using ChatGPT-Generated Parallel Data → Now my PhD student
2023 **Atli Snær Ásmundsson** — Sentiment analysis with IceBERT for Icelandic blogs → PhD student at Reykjavík University
2023 **Hrafnhildur Hauksdóttir** — Heart failure pharmacotherapy after discharge at Landspítali
2023 **Þór Sverrisson** — Abstractive summarization for Icelandic → PhD at University of Iceland
2022 **Andrea Rakel Sigurðardóttir** — Few-shot nematode detection with multi-spectral imaging → PhD at University of Iceland
2022 **Kim Cosmo Ström** — Drawing Music
2021 **Vésteinn Snæbjarnarson** — QA method for Icelandic → PhD at University of Copenhagen and ETH Zurich

Current master's students — 1

Haukur Barri Símonarson

07 Teaching

Roughly 300+ students per academic year across these courses.

MSc **AI and Leadership** — Course in the Executive MBA programme at the University of Iceland on artificial intelligence for working leaders. Participants learn what current AI systems can and cannot do, where AI is useful in the everyday work of leadership (data, decision-making, employee performance and well-being, and the leader's own development), and what ethical questions come with putting AI to work inside a business. Classes include direct work with generative AI tools. Co-taught in 2025 with Sigrún Gunnarsdóttir, a servant-leadership researcher; taught alone in 2026. In Icelandic. *Taught:* 2025, 2026.

MSc **The AI Lifecycle** — Master's course on the full lifecycle of a production AI system: gathering and preparing data, feature selection, training models, evaluating them, putting them into production, serving them as services, and monitoring and maintaining them once live. The semester is built around three larger team projects in which student teams compete to build the best working solution. *Taught:* Spring 2021, Spring 2022, Spring 2023, Spring 2024, Spring 2025, Spring 2026.

MSc **Introduction to Deep Learning** — Master's introduction to deep neural networks, covering backpropagation, model training and regularisation, and architectures used for image, audio, and text. Generative, adversarial, and sequential models are part of the syllabus, with PyTorch as the implementation language throughout. Students present a paper or project of their own from the field as part of the assessment. Taught in English. *Taught:* Fall 2025.

MSc **Large Language Models in an Icelandic Context** — Master's course at the School of Humanities asking how well large language models work in Icelandic and what their behaviour says about both the models and human language. Topics include methods for evaluating LLM linguistic competence in Icelandic, the risks that come with widespread chatbot use in smaller language communities (misinformation, bias and prejudice), and what cross-linguistic performance suggests about the way children and machines acquire language. Lead instructor: Iris Edda Nowenstein. Taught in Icelandic. *Taught:* Spring 2026.

MSc — **Natural Language Processing (Business Intelligence module)** — Two-week module on natural language processing taught inside the Business Intelligence master's course at the School of Business, where Helga Ingimundardóttir is the lead instructor. The module covers text preprocessing, embeddings, classification, named-entity recognition, and the use of large language models in analyst workflows. Taught in English. *Taught:* Spring 2022, Spring 2023, Spring 2024.

BSc / MSc — **Analysis of Algorithms** — Algorithm design and analysis, taught as a bridge course between the BSc and MSc programmes in computer science. Covers asymptotic complexity, algorithms for sorting and searching, graph algorithms and matrix computation, and the standard design strategies of divide-and-conquer, greedy methods, and dynamic programming. The course closes with the basics of intractability: NP-completeness, approximation algorithms, and randomised algorithms. Co-taught with Steinn Guðmundsson and Páll Melsted on a rotating basis. Taught in English. *Taught:* Spring 2021, Spring 2023, Spring 2025.

BSc — **Computers, Operating Systems and Digital Literacy** — Self-study BSc course developed in 2020 and modelled on MIT's "Missing Semester of your CS Education". Covers computer organisation, operating-systems basics, and the command-line and tooling skills students need across the rest of the degree. Designed for both Icelandic and international students to work through at their own pace.

BSc — **Discrete Mathematics for Computer Science** — First-year course covering the discrete-math foundations used throughout the rest of the computer-science degree: propositions and predicate logic, set theory and Boolean algebra, induction and recursion, counting and basic algorithm analysis, relations and their representations, trees and graphs, and the basics of strings, finite automata, and formal grammars. Enrolment runs 200–230 students per cohort, a mix of Icelandic and international students. *Taught:* Fall 2020, Fall 2021, Fall 2022, Fall 2023.

08 Open-source Projects

active — **FoQA** — The first dedicated question-answering dataset for Faroese, with extractive and generative variants. Built through translation and adaptation of existing QA benchmarks combined with native-speaker validation, and accompanied by baseline evaluations of multilingual and Faroese-tuned language models. Released alongside the RESOURCEFUL 2025 paper.

maintenance — **GameQA** — A gamified mobile-app platform for crowdsourcing multi-domain question-answering datasets. Demonstrated at EACL 2023 System Demonstrations and used to collect the RUQuAD-1 reading-comprehension dataset for Icelandic.

maintenance — **Hotter and Colder** — An Icelandic sentiment corpus of blog comments annotated with nuanced labels for sentiment, emotions, toxicity, sarcasm, hate speech, sympathy, and related categories. Distributed via the University of Iceland, with the companion methodology paper at NoDaLiDa / Baltic-HLT 2025.

maintenance — **IceBERT family** — A family of Icelandic BERT-style language models pre-trained on the Icelandic Crawled Corpus. Released alongside the LREC 2022 paper with Miðeind, the IceBERT checkpoints have become the foundation for much of the subsequent Icelandic NLP work in our group and elsewhere.

active — **Icelandic ModernBERT** — ModernBERT encoders for Icelandic from 12M to 1B parameters, trained on 9B tokens of open data: a size ladder trained from scratch and the models from the warm-start study, 34 in all under the MIT licence. The 1B model, to our knowledge the first monolingual Icelandic encoder of that size, is significantly better than IceBERT on all eleven benchmark tasks. Released alongside the 2026 arXiv preprint.

maintenance — **Icelandic WinoGrande** — An Icelandic adaptation of the WinoGrande commonsense-reasoning benchmark, built to evaluate Icelandic language models on pronoun disambiguation and world-knowledge tasks. Released by Miðeind ehf.

active — **MazeEval** — A benchmark for testing sequential decision-making in language models through navigation tasks in procedurally generated mazes. Single-author preprint with the benchmark released alongside the paper.

maintenance — **MIM-GOLD-EL** — An entity-linking corpus for Icelandic built on top of the MIM-GOLD named-entity collection. Released with the University of Iceland and introduced at LREC 2022; the companion methodology paper appeared at the Dataset Creation for Lower-Resourced Languages workshop.

maintenance — **NQiI - Natural Questions in Icelandic** — An open-domain question-answering dataset for Icelandic, adapted from the English Natural Questions benchmark. Released in two versions (v1.0 at LREC 2022 and an updated v1.1) and distributed through the University of Iceland for evaluating Icelandic QA systems.

maintenance — **RUQuAD-1** — The Reykjavik University Question-Answering Dataset for Icelandic, a SQuAD-style reading-comprehension benchmark collected through the GameQA mobile platform. Distributed via the University of Iceland.

09 Talks

2026 **AI and our jobs: what do we know now?**, BSRB union representatives' symposium, Reykjavik, Iceland `invited`
2026 **Talk at the SAR forum**, SAR málþing, Reykjavik, Iceland `invited`
2026 **Results of the Icelandic AI usage survey**, AI usage survey presentation, Reykjavik, Iceland `outreach`
2026 **Research seminar**, Amgen deCODE, Reykjavik, Iceland `invited`
2026 **Eru risamállíkön verri á íslensku? (Are large language models worse at Icelandic?)**, UTmessan — AI Norðurljós track, Reykjavik, Iceland `invited`
2026 **AI in clinical practice**, Læknadagar (Icelandic Medical Days), Reykjavik, Iceland `invited`
2026 **AI for medical students**, Faculty of Medicine, University of Iceland, Reykjavik, Iceland `invited`
2025 **KatlaCode in the TrustLLM context**, TrustLLM / KatlaCode presentation `workshop`
2025 **Talk at Vísindavefurinn's 25th anniversary**, Vísindavefurinn 25th anniversary, Reykjavik, Iceland `outreach`
2025 **TrustLLM project presentation**, TrustLLM consortium meeting `workshop`
2025 **Prompt engineering for researchers**, Prompt engineering workshop, Reykjavik, Iceland `workshop`
2025 **AI in nursing**, Icelandic Nurses' Association (Félag hjúkrunarfræðinga), Reykjavik, Iceland `invited`
2025 **Data quality for AI**, SKÝ data quality conference, Reykjavik, Iceland `invited`
2025 **Teachers' attitudes and perceptions of AI usefulness in academia**, ICERI 2025 `workshop`
2025 **University of Iceland teachers' attitudes and experience with generative AI**, Menntakvika 2025, Reykjavik, Iceland `workshop`
2024 **AI and society in Iceland**, Þjóðarspegillinn (Mirror of the Nation), Icelandic social sciences conference, Reykjavik, Iceland `workshop`
2024 **AI and continuing education**, Símennt continuing education forum, Reykjavik, Iceland `outreach`
2024 **AI in health and life sciences**, Life and Health Sciences conference, Reykjavik, Iceland `invited`
2024 **AI in education research**, Menntakvika 2024, Reykjavik, Iceland `workshop`
2024 **AI in design**, NordDesign 2024 `invited`
2024 **Applications of BERT models towards automation of clinical coding in Icelandic**, NAACL 2024 Findings, Mexico City, Mexico `invited`
2024 **Clinical AI in Iceland**, Landspítali (Icelandic National University Hospital), Reykjavik, Iceland `invited`
2024 **AI in biology**, Faculty of Life and Environmental Sciences, University of Iceland, Reykjavik, Iceland `invited`
2024 **Talk on AI**, Veritas conference, Reykjavik, Iceland `invited`
2024 **AI in continuing education**, Continuing education conference (Framhaldsfræðsla), Reykjavik, Iceland `outreach`
2024 **Talk at the Science and Innovation Awards**, University of Iceland Science and Innovation Awards (Vísinda- og nýsköpunarverðlaun), Reykjavik, Iceland `invited`
2024 **AI in language teaching**, Association of German Teachers in Iceland, Reykjavik, Iceland `invited`
2024 **AI and Icelandic language teaching**, Association of Upper Secondary School Icelandic Teachers (Félag framhaldsskólakennara í íslensku), Reykjavik, Iceland `invited`
2024 **Mistök gervigreindar (Mistakes of artificial intelligence)**, UTmessan, Reykjavik, Iceland `invited`
2023 **AI in Nordic university administration**, NUAS (Nordic University Administrators) `invited`
2023 **AI in business**, MBA Programme, University of Iceland, Reykjavik, Iceland `invited`
2023 **AI in Nordic universities**, NORRIC `invited`
2023 **AI standards and governance**, Standards Council of Iceland (Staðlaráð), Reykjavik, Iceland `invited`
2023 **AI in adult education**, Rannís adult education forum, Reykjavik, Iceland `outreach`
2023 **AI for lifelong learners**, University of the Third Age (U3A), Reykjavik, Iceland `outreach`
2023 **AI in health sciences**, School of Health Sciences, University of Iceland, Reykjavik, Iceland `invited`
2023 **HPC for language modelling**, Icelandic HPC workshop, Reykjavik, Iceland `workshop`
2023 **AI and ethics**, UNESCO forum on AI and Ethics `invited`
2023 **AI and the legal profession**, Bifröst University, Faculty of Law, Bifröst, Iceland `invited`
2023 **Talk on AI**, Kvasir, Reykjavik, Iceland `invited`
2023 **AI in teaching**, Icelandic Teaching Academy conference (Kennsluakademían), Reykjavik, Iceland `invited`
2023 **AI in agricultural research**, Agricultural University of Iceland (Landbúnaðarháskólinn), Hvanneyri, Iceland `invited`
2023 **AI and psychology**, Faculty of Psychology, University of Iceland, Reykjavik, Iceland `invited`
2023 **AI and society**, Rotary Club of Seltjarnarnes, Seltjarnarnes, Iceland `outreach`
2023 **AI in finance and banking**, Central Bank of Iceland (Seðlabanki Íslands), Reykjavik, Iceland `invited`
2023 **AI and the legal profession**, Icelandic Bar Association (Lögfræðingafélag Íslands), Reykjavik, Iceland `invited`
2023 **AI in higher education**, University of Akureyri teaching conference, Akureyri, Iceland `invited`
2022 **Icelandic language resources for the ELRC**, ELRC workshop, Reykjavik, Iceland `workshop`

2022 **Computer vision for fish stock assessment**, Marine and Freshwater Research Institute of Iceland (Hafró), Reykjavik, Iceland `invited`
2022 **AI for the curious**, Vísindavaka (European Researchers' Night), Reykjavik, Iceland `outreach`
2022 **Icelandic resources at LREC**, LREC 2022, Marseille, France `workshop`
2022 **AI in engineering education**, Nordtek conference `invited`
2022 **UTmessan 2022**, UTmessan, Reykjavik, Iceland `invited`
2021 **HPC for language modelling**, Icelandic HPC workshop, Reykjavik, Iceland `workshop`
2021 **Guest lecture on language technology**, University of Iceland, Reykjavik, Iceland `invited`
2021 **Research seminar**, Amgen deCODE ML group, Reykjavik, Iceland `invited`
2021 **Public talk on AI**, Reykjavík City Library (Borgarbókasafn), Reykjavik, Iceland `outreach`
2021 **AI in education**, Menntaþing (Education forum), Reykjavik, Iceland `outreach`
2021 **Talk on language technology and AI**, Icelandic Language Technology Conference (Máltækniráðstefnan), Reykjavik, Iceland `invited`
2021 **UTmessan 2021**, UTmessan, Reykjavik, Iceland `invited`
2021 **Nationally broadcast interview on AI**, RÚV (Icelandic National Broadcaster), Reykjavik, Iceland `outreach`

010 Outreach and Community

2023–2026 **Judge**, First Lego League Iceland
2022 **Mentor**, Nordic Open Data and AI Hackathon
2020 **Judge**, Icelandic environmental Datathon

011 Service

Reviewing (selected):
2025–present Icelandic Technology Development Fund (Tækniþróunarsjóður), research and innovation applications
2024–present ACL Rolling Review
2022–present LREC workshops
2023 Animals
2023 Sensors
2023 Applied Sciences
2021 NeurIPS workshops
2020–2021 Machine Learning (Springer)
2018 COSYNE
2018 Hippocampus
2017 SIROCCO

Roles:
2026–present **Board member**, Association of Computer Scientists in Iceland
2026 **Ad-hoc committee member**, Ethics committee, University of Iceland — single case
2025–present **Council member**, Professional Council, Icelandic Technology Development Fund (Tækniþróunarsjóður) — reviewing research and innovation applications
2025 **Leading author**, AI policy of the University of Iceland — chaired the preparatory committee; the final policy was drafted by three main authors. https://hi.is/gervigreindarstefna
2024–present **Vice-chair and founding member**, University of Iceland Centre for Artificial Intelligence — preparatory work from 2024; centre established 2025. https://ai.hi.is/en/about/
2024–2026 **Editorial board member**, Vísindavefurinn (Icelandic Science Web), University of Iceland
2021–2026 **Committee member**, Icelandic language committee, University of Iceland
2021–2024 **Committee member**, Teaching committee, School of Engineering and Natural Sciences, University of Iceland
2021–2023 **Committee member**, Equality committee, School of Engineering and Natural Sciences, University of Iceland
2020–2026 **President**, Association of Computer Scientists in Iceland
2019–2020 **Committee member**, SKÝ committee on data applications
2013–2016 **Board member, vice-president, president**, VMI (Association of scientific staff, CS Department, ETH Zurich)

012 Media Appearances

Selected interviews, opinion pieces and broadcast appearances on AI, language technology, and research. Titles are in Icelandic with English translations underneath. Linked entries open the original story.

013 Collaborations

Academic
- Marine and Freshwater Research Institute of Iceland (otolith age reading, fish species classification)
- TrustLLM partners (Faroese, German and other European groups)
- University of Copenhagen
- ETH Zurich
- Amgen deCODE
- Faculty of Food Science, University of Iceland
- Landspítali (Icelandic National Hospital) — clinical coding and heart-failure pharmacotherapy

Industry / practice
- VideometerLab — multispectral image analysis for nematode detection
- Horseday — horse gait detection from smartphone recordings
